Subject: The importance of HB22
Date: Sunday, March 5, 2023 7:42:31 PM

Hello my name is Grant Kopplin. I am Firefighter in the tier 4 system here in Alaska and I am asking you to please help move HB22 forward. The lack of the defined benefit system here in Alaska has pushed me and family to look for work outside of Alaska in other states that do. I want to continue to live in Alaska, serve the residents of anchorage, and raise my family here, but unless our retirement system changes, it doesn't make sense for me to stay. We are waiting to see what happens with this new well thought out plan before we commit to leaving. Please help move this bill forward, it's important for not only first responders, but everyone they serve. Help keep highly trained and professional first responders home!
