WRITTEN TESTIMONY

NAME: Chrystal Schoenrock
REPRESENTING: ~~S~~ Self
BILL # or SUBJECT: SB 25
COMMITTEE: STRA DATE: 2-2-17

You talk about who will be using the most fuel. But what about all of us, who is lucky to have a job, & can go to work. You mention an electric car, well who will buy me one. I sure as hell can't afford one & don't want one. Im having a hard time keeping my car running. Also with people being laid off & taking a cut in wages to just keep their jobs. I have a business, small one, & my customer ~~are~~ down between 30% to 35% now. So how are Mom & Pops going stay opened? I know you have people in the state offices who can do 2 or 3 different jobs so I say cut some wages & jobs. The fuel is made here but in Anchorge it is Cheaper than buying it in Kenai, Soldotna or ~~Kenai~~ Nikiski.

I'm sure ~~you~~ some of you can take a cut in wages, I have cut all I can & even laid off because I can't afford to pay them. So people are moving out of Alaska because they have no jobs How much do you people thank, we people can keep paying, when we are broke.
