Subject: SUPPORT for HJR 32

Dear Chair Dunbar and Committee Members,

As a resident of Homer, I am writing to urge your strong support for HJR 32.

This resolution is vital for securing the long-term federal funding needed to transform our healthcare system.

We cannot afford to let $1.36 billion in resources for our clinics, workforce, and seniors be put at risk.

Please pass HJR 32 today to show that Alaska is committed to a healthy future for all its residents.

Thank you.
