Dear Sir:
I have owned a home on Jarvi Drive along the railroad for almost 40 years. I believe the railroad moved its rightaway to the east during reconstruction after the 1964 earthquake. The earthquake caused the tracks to be too low on the flats and the corp dug into the bank to the east to raise the tracks and lessen the Potter hill. Because of this the railroads position of having a rightaway or easement is incorrect.
Please support HB136 as the railroad has always been and will continue to be a bad neighbor.
