Dear Representative Kopp,

On behalf of Alaska REALTORS®, thank you for your ongoing commitment to protecting private property rights in Alaska. We fully support HB 136, which provides needed clarity for Alaskans owning property with railroad easements, ensuring reasonable land use without interfering with railroad operations.

Protecting property rights is a core value for us, demonstrated through our support of past efforts like HJR 38 (2018) and HB 93 (2017). We believe HB 136 is a fair, balanced approach, and we urge the Legislature to pass it.

Please let us know if we can assist in moving this bill forward. We're happy to provide testimony or further support.

Thanks,

Febra Hensley
