The purpose of this letter is to express my support for ranked choice voting. I oppose the efforts to put forward HB 1, a bill with the sole intent of undermining the will of the voters.

Ranked choice voting is simple, easy to do, and the resulting candidate must have the support of over half of the electorate. This is a vast improvement over voting and primary elections of the past.

I urge you to vote no on HB 1.

Thank you,

Mark Wolbers
