Subject: Board of Game Appointee Al Barrette

Please, please do not confirm Al Barrette to the BOG.
The BOG is already out-of-balance and this man would really be a disgrace to the people and wildlife of Alaska.
Mr. Barrette runs a tannery, makes and sells wolf traps, is a hired gunner on planes killing wolves from the air, is a proponent of bear baiting (this is not "hunting") and thinks the wildlife (especially bears and wolves) should be exterminated by any means necessary.

The BOG already is overloaded with guides, trappers, and other people who profit off their own decisions. What about the rest of Alaskans? Where is the balance? It simply is not present.
Please do not confirm Mr. Barrette.

Thanks and please do the right thing.
