House State Affairs Committee,

I would like to show my support for House Bill 4. I did not support ranked choice voting initially, and found it disturbing with how much outside money was spent in support of it. I found out about HB 4, from a union email wanting me to oppose it. But I guess this just shows that not all union members support the left.

Please support this bill, and while your at it, any bills to support parental rights.

Thank you for your time and consideration,

Jesse Kinsland
