Ranked Choice Voting is an abomination because the person who gets the most votes doesn't necessarily win.

It only passed in the state in a 1% margin (3781 votes), and that is likely because our Alaska Supreme Court chose to override the legislative authority to determine election requirements, saying 40,000 absentee votes didn't need a verifying signature.

Holding on to HB 4 is thwarting the general will of Alaskans; go sit at a booth where one can sign a petition to bring Ranked Choice Voting to a vote and you will hear this loud and clear: get rid of it!
