The following appropriation items are for operating expenditures from the general fund or other funds as set out in the funding source summary in sec. 25 of this Act to the state agencies named and for the purposes set out in the new legislation for the fiscal year beginning July 1, 1987, and ending June 30, 1988. The appropriation items contain funding for legislation assumed to have passed during the First Session of the Fifteenth Alaska State Legislature and are to be considered part of the agency operating budget. Should a measure listed in this section either fail to pass, its substance fail to be incorporated in some other measure, or be vetoed by the governor, the appropriation for that measure lapses.
