A BILL

FOR AN ACT ENTITLED

"An Act relating to workers' compensation insurance rate filings; to second independent medical evaluations for workers' compensation claims; to confidentiality of workers' compensation medical and rehabilitation information; to immunity for third-party design professionals from civil actions by recipients of workers' compensation benefits; to workers' compensation death benefits; to computation of workers' compensation benefits; to penalties for fraudulent acts related to workers' compensation; to immunity for employer workplace safety inspections related to workers' compensation insurance."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. FINDINGS AND PURPOSE AS TO SECTION 9. (a) The legislature finds that

(1) efficiency in calculating workers' compensation benefits does not require unfairness;
(2) a quick, efficient, and predictable scheme for determining a worker's gross
weekly earnings can be formulated without denying employees their workers' compensation
benefits commensurate with their actual losses;
(3) many workers in the state are only seasonally employed in the construction,
tourism, fishing, and education industries;
(4) many workers in the state choose a subsistence lifestyle and are only
occasionally, sporadically, or on a part-time basis members of the labor force;
(5) many other states avoid the need for an alternative open-ended determination
of an employee's future earning capacity by focusing on the employee's wages at the time of
injury and converting, by formula, the employee's rate of pay into a weekly wage;
(6) benefits for permanent total disability can last for a substantial period into
the future and serve a different purpose than benefits for temporary partial or temporary total
disability.

(b) It is the purpose of sec. 9 of this Act to
(1) redefine the calculation of an employee's spendable weekly wage used to
determine workers' compensation benefits in a manner that complies with the decision of the
Alaska Supreme Court in Gilmore v. Alaska Workers' Compensation Board, 882 P.2d 922
(Alaska 1994);
(2) fix a fair approximation of an employee's probable future earning capacity
during the period of temporary partial or temporary total disability without resorting to an open-
ended determination of actual future earning capacity;
(3) avoid uncertainty and litigation for injured workers and their employers;
(4) allow an alternative open-ended determination of actual future earnings for
those employees who suffer a permanent total disability and whose wages cannot otherwise be
fairly calculated.

* Sec. 2. AS 21.39 is amended by adding a new section to read:

Sec. 21.39.045. WORKERS' COMPENSATION RATE FILINGS. (a)
Notwithstanding any other provision of this chapter, a rate filing for workers'
compensation insurance that classifies a risk in the construction industry may not contain
or impose a higher premium rate if the risk upon which the higher rate filing is based
consists only of a higher wage rate paid by the employer.
(b) The director shall accept a rate filing for workers' compensation insurance

if the filing includes a reasonable method of recognizing differences in rates of pay and
the method uses a credit scale that begins at an amount equal to the average weekly
wage in this state as determined by the Department of Labor.

* Sec. 3. AS 23.30 is amended by adding a new section to read:

   Sec. 23.30.017. IMMUNITY FOR THIRD-PARTY DESIGN PROFESSIONAL.

   (a) A person entitled to compensation under this chapter as a result of injury occurring
   at the job site of a construction project may not bring a civil action to recover damages
   for that injury against a design professional or an employee of a design professional who
   provides professional services for the construction project.

   (b) This section does not apply to a person receiving compensation under this
   chapter who is injured at a job site at which the design professional or employee of the
   design professional

   (1) specifically assumed responsibility for job site safety practices under
   a contract;

   (2) actually exercises control over the premises where the injury
   occurred; or

   (3) prepared design plans or specifications, the plans or specifications
   contributed to the injury, and the plans or specifications were prepared negligently,
   recklessly, or with intentional misconduct.

   (c) In this section,

   (1) "design professional" means a person licensed under AS 08.48 as an
   architect, engineer, or land surveyor;

   (2) "professional services" means services provided by a design
   professional that are within the scope of services for which the design professional is
   licensed.

* Sec. 4. AS 23.30.095(k) is amended to read:

    (k) In the event of a medical dispute regarding determinations of causation,
medical stability, ability to enter a reemployment plan, degree of impairment, functional
capacity, the amount and efficacy of the continuance of or necessity of treatment, or
compensability between the employee's attending physician and the employer's
independent medical evaluation, the board may require that a second independent
medical evaluation [SHALL] be conducted by a physician or physicians selected by the
board from a list established and maintained by the board. The cost of an examination and medical report shall be paid by the employer. The report of an independent medical examiner shall be furnished to the board and to the parties within 14 days after the examination is concluded. (b) Medical or rehabilitation records in an employee's file maintained by the board are not public records subject to public inspection and copying under AS 09.25. This subsection does not prohibit

(2) the calculation required by (1) of this subsection does not apply if the recipient is absent from the state for medical or rehabilitation services not reasonably available in the state;
(3) if the gross weekly earnings of the recipient and the resulting compensation rate are determined under AS 23.30.220(a)(6), (7), or (10) [AS 23.30.220(a)(2)], the calculation required by this subsection applies only to the portion of the recipient's weekly compensation rate attributable to wages earned in the state;

An employee's spendable weekly wage is the employee's gross weekly earnings minus payroll tax deductions. An employee's gross weekly earnings shall be calculated as follows:

(1) if at the time of injury the employee's earnings are calculated by the week, the weekly amount is the employee's gross weekly earnings;

(2) if at the time of injury the employee's earnings are calculated by the month, the employee's gross weekly earnings are the monthly earnings multiplied by 12 and divided by 52;

(3) if at the time of injury the employee's earnings are calculated by the year, the employee's gross weekly earnings are the yearly earnings divided by 52;

(4) if at the time of injury the output of the employee, the employee's gross weekly earnings are the employee's
earnings most favorable to the employee computed by dividing by 13 the employee's earnings, not including overtime or premium pay, earned during any period of 13 consecutive calendar weeks within the 52 weeks immediately preceding the injury;

(B) employee has been employed for less than 13 calendar weeks immediately preceding the injury, then, notwithstanding (1) - (3) of this subsection and (A) of this paragraph, the employee's gross weekly earnings are computed by determining the amount that the employee would have earned, not including overtime or premium pay, had the employee been employed by the employer for 13 calendar weeks immediately preceding the injury and dividing this sum by 13;

(5) if at the time of injury the employee's earnings have not been fixed or cannot be ascertained, the employee's earnings for the purpose of calculating compensation are the usual wage for similar services when the services are rendered by paid employees;

(6) if at the time of injury the employment is exclusively seasonal or temporary, then, notwithstanding (1) - (5) of this subsection, the gross weekly earnings are 1/50th of the total wages that the employee has earned from all occupations during the calendar year immediately preceding the injury;

(7) when the employee is working under concurrent contracts with two or more employers, the employee's earnings from all employers is considered as if earned from the employer liable for compensation;

(8) if an employee when injured is a minor, an apprentice, or a trainee in a formal training program, as determined by the board, whose wages under normal conditions would increase during the period of disability, the projected increase may be considered by the board in computing the gross weekly earnings of the employee;

(9) if the employee is injured while performing duties as a volunteer ambulance attendant, volunteer police officer, or volunteer fire fighter, then, notwithstanding (1) - (6) of this subsection, the gross weekly earnings for calculating compensation shall be the minimum gross weekly earnings paid a full-time ambulance attendant, police officer, or fire fighter employed in the political subdivision where the injury occurred, or, if the political subdivision has no full-time ambulance attendants,
police officers, or fire fighters, at a reasonable figure previously set by the political
subdivision to make this determination, but in no case may the gross weekly earnings for
calculating compensation be less than the minimum wage computed on the basis of 40
hours work per week;

(10) if an employee is entitled to compensation under AS 23.30.180 and
the board determines that calculation of the employee's gross weekly earnings under (1) -
(7) of this subsection does not fairly reflect the employee's earnings during the period
of disability, the board shall determine gross weekly earnings by considering the nature
of the employee's work, work history, and resulting disability, but compensation
calculated under this paragraph may not exceed the employee's gross weekly earnings
at the time of injury.

  (c) In this section,
