Section 1. AS 34 is amended by adding a new chapter to read:

CHAPTER 75. NOISE LEVELS OF SPORT SHOOTING FACILITIES AND PRIVATE AIRPORT FACILITIES.

Sec. 34.75.010. LIMITATION ON ACTIONS ARISING FROM NOISE LEVEL. (a) Notwithstanding AS 09.45.230, AS 11.61.110, and any other state or municipal law, except (b) of this section and except as may be otherwise provided by federal law, a person may not bring a civil or criminal action against a person who operates or uses a sport shooting facility or a private airport facility if the action arises out of the noise level resulting from the normal operation or use of the facility and if the facility

(1) was established or began operation before any noise control law applied to the facility; or

(2) complies with the noise control laws that applied to the facility

New Text Underlined [DELETED TEXT BRACKETED]
when the facility was established or began operation.

(b) The prohibition in (a) of this section does not apply to an action that arises out of

(1) a contract; or

(2) a personal injury suffered by a person while on the premises of the facility.

(c) Even if otherwise allowed by (a) - (b) of this section, a person may not maintain a nuisance action for noise level against a facility located in the vicinity of the person’s property if the facility was established before the person acquired the property, unless the facility substantially changes the use of the facility after the person acquires the property.

Sec. 34.75.020. TIME LIMITATION ON NUISANCE ACTIONS. Except as may otherwise be provided by federal law, a person may not bring a nuisance action otherwise allowed under this chapter for the level of noise against a facility unless the action is brought within five years after the facility is established or began operation, or, if the action is brought after a substantial change in the use of the facility, within three years after the substantial change. In this section, "established" includes resuming shooting activity at a sport shooting facility if there has not been shooting activity at the facility for three years, or resuming airport activity at a private airport facility if there has not been airport activity at the facility for three or more years.

Sec. 34.75.030. STATE AND MUNICIPAL REGULATION. (a) Notwithstanding AS 02.15.020 and AS 02.25.020, the state or a municipality may not regulate the outdoor level of noise at a facility if the facility is exempt from a criminal or civil action under AS 34.75.010(a).

(b) Except as otherwise provided in this chapter, a municipality may regulate the noise level produced by a facility.

Sec. 34.75.090. DEFINITIONS. In this chapter,

(1) "airport facility" means an area of land or water that is used or intended for use for the landing and take-off of aircraft, including appurtenant areas that are used or intended for use as airport buildings or rights-of-way; in this paragraph, "aircraft" includes fixed-wing and rotor aircraft;
