IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-FIRST LEGISLATURE - FIRST SESSION

BY THE HOUSE COMMUNITY AND REGIONAL AFFAIRS COMMITTEE

Offered: 5/16/99
Referred: First Supplemental Calendar

Sponsor(s): SENATOR DONLEY

A BILL

FOR AN ACT ENTITLED

"An Act requiring an electric or telephone utility that provides services in a municipality with a population of more than 200,000 to have an ongoing program of placing existing overhead utility distribution lines underground; and relating to rates for recovering the cost of placing existing overhead utility distribution lines underground."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 42.05.381 is amended by adding new subsections to read:

(h) An electric or telephone utility that has overhead utility distribution lines and that provides services in a municipality with a population of more than 200,000 must spend at least one percent of the utility’s annual gross revenue from retail customers in that municipality to place existing overhead utility distribution lines in that municipality underground. In determining the annual gross revenue under this subsection, only revenue derived from the utility's distribution lines in the municipality
shall be considered.

(i) An electric or telephone utility that is implementing a program to place existing overhead utility distribution lines located in a municipality underground may amend its rates for services provided to customers in the municipality to enable the utility to recover the full actual cost of placing the lines underground. Notwithstanding AS 42.05.411 - 42.05.431, an amendment to a utility’s rates under this subsection is not subject to commission review or approval. A utility amending its rates under this subsection shall notify the commission of the amendment. This subsection applies to an undergrounding program to the extent that the costs do not exceed two percent of the utility’s annual gross revenue. If an undergrounding program’s costs exceed two percent, the commission may regulate rate increases proposed for the recovery of the amount above two percent.

(j) When an electric utility or a telephone utility is implementing a program to place existing overhead utility distribution lines located in a municipality underground, any other overhead line or cable in the same location shall be placed underground at the same time. Each entity whose lines or cables are placed underground shall pay the cost of placing its own lines or cables underground.
