43.55.011(o), as applicable, for gas, or set out in AS 43.55.011(k) for oil, but
substituting in AS 43.55.011(j)(1)(A) or (2)(A) or 43.55.011(o), as applicable, the
amount of taxable gas produced during the month for the amount of taxable gas
produced during the calendar year and substituting in AS 43.55.011(k) the
amount of taxable oil produced during the month for the amount of taxable oil
produced during the calendar year. [""

* Sec. 17. AS 43.55.023(a) is amended to read:

(a) A producer or explorer may take a tax credit for a qualified capital
(1) notwithstanding that a qualified capital expenditure may be a deductible lease expenditure for purposes of calculating the production tax value of oil and gas under AS 43.55.160(a), unless a credit for that expenditure is taken under [AS 38.05.180(i), AS 41.09.010,] AS 43.20.043 [,] or AS 43.55.025, a producer or explorer that incurs a qualified capital expenditure may also elect to apply a tax credit against a tax levied by AS 43.55.011(e) in the amount of \(10\) [20] percent of that expenditure;

(2) a producer or explorer may take a credit for a qualified capital expenditure incurred in connection with geological or geophysical exploration or in connection with an exploration well only if the producer or explorer

(A) agrees, in writing, to the applicable provisions of AS 43.55.025(f)(2); and

(B) submits to the Department of Natural Resources all data that would be required to be submitted under AS 43.55.025(f)(2);

(3) a credit for a qualified capital expenditure incurred to explore for, develop, or produce oil or gas deposits located

(A) north of 68 degrees North latitude may be taken only if the expenditure is incurred before January 1, 2014;

(B) in the Cook Inlet sedimentary basin may be taken only if the expenditure is incurred before January 1, 2018.

* Sec. 18. AS 43.55.023(b) is amended to read:

(b) Before January 1, 2014, a producer or explorer may elect to take a tax credit in the amount of 25 percent of a carried-forward annual loss. For lease expenditures incurred on and after January 1, 2014, and before January 1, 2016, to explore for, develop, or produce oil or gas deposits located north of 68 degrees North latitude, a producer or explorer may elect to take a tax credit in the amount of 45 percent of a carried-forward annual loss. For lease expenditures incurred on and after January 1, 2016, to explore for, develop, or produce oil or gas deposits located north of 68 degrees North latitude, a producer or explorer may elect to take a tax credit in the amount of 35 percent of a carried-forward annual loss. For lease expenditures
incurred on or after January 1, 2014, and before January 1, 2017, to explore for, develop, or produce oil or gas deposits located south of 68 degrees North latitude, a producer or explorer may elect to take a tax credit in the amount of 25 percent of a carried-forward annual loss. For lease expenditures incurred on or after January 1, 2017, to explore for, develop, or produce oil or gas deposits located south of 68 degrees North latitude, a producer or explorer may elect to take a tax credit in the amount of 15 percent of a carried-forward annual loss, except that a credit for lease expenditures incurred to explore for, develop, or produce oil or gas deposits located in the Cook Inlet sedimentary basin may only be taken if the expenditure is incurred before January 1, 2018. A credit under this subsection may be applied against a tax levied by AS 43.55.011(e). For purposes of this subsection,

(1) a carried-forward annual loss is the amount of a producer's or explorer's adjusted lease expenditures under AS 43.55.165 and 43.55.170 for a previous calendar year that was not deductible in calculating production tax values for that calendar year under AS 43.55.160;

(2) for lease expenditures incurred on or after January 1, 2017, any reduction under AS 43.55.160(f) or (g) is added back to the calculation of production tax values for that calendar year under AS 43.55.160 for the determination of a carried-forward annual loss.

* Sec. 19. AS 43.55.023(l) is amended to read:

(l) A producer or explorer may apply for a tax credit for a well lease expenditure incurred in the state south of 68 degrees North latitude after June 30, 2010, as follows:

(1) notwithstanding that a well lease expenditure incurred in the state south of 68 degrees North latitude may be a deductible lease expenditure for purposes of calculating the production tax value of oil and gas under AS 43.55.160(a), unless a credit for that expenditure is taken under (a) of this section, [AS 38.05.180(i), AS 41.09.010,] AS 43.20.043, or AS 43.55.025, a producer or explorer that incurs a well lease expenditure in the state south of 68 degrees North latitude may elect to apply a tax credit against a tax levied by AS 43.55.011(e) in the amount of

(A) 40 percent of that expenditure incurred before January 1,
(B) 20 percent of that expenditure incurred on or after January 1, 2017 [; A TAX CREDIT UNDER THIS PARAGRAPH MAY BE APPLIED FOR A SINGLE CALENDAR YEAR];

(2) a producer or explorer may take a credit for a well lease expenditure incurred in the state south of 68 degrees North latitude in connection with geological or geophysical exploration or in connection with an exploration well only if the producer or explorer

(A) agrees, in writing, to the applicable provisions of AS 43.55.025(f)(2); and

(B) submits to the Department of Natural Resources all data that would be required to be submitted under AS 43.55.025(f)(2);

(3) a credit for a well lease expenditure incurred to explore for, develop, or produce oil or gas deposits located in the Cook Inlet sedimentary basin may be taken only if the expenditure is incurred before January 1, 2018.

* Sec. 20. AS 43.55.024(i) is amended to read:

(i) A producer may apply against the producer's tax liability for the calendar year under AS 43.55.011(e) a tax credit of $5 for each barrel of oil taxable under AS 43.55.011(e) that receives a reduction in the gross value at the point of production under [MEETS ONE OR MORE OF THE CRITERIA IN] AS 43.55.160(f) or (g) and that is produced during a calendar year after December 31, 2013. A tax credit authorized by this subsection may not reduce a producer's tax liability for a calendar year under AS 43.55.011(e) below zero.

* Sec. 21. AS 43.55.024(j) is amended to read:

(j) A producer may apply against the producer's tax liability for the calendar year under AS 43.55.011(e) a tax credit in the amount specified in this subsection for each barrel of oil taxable under AS 43.55.011(e) that does not receive a reduction in the gross value at the point of production under [MEET ANY OF THE CRITERIA IN] AS 43.55.160(f) or (g) and that is produced during a calendar year after December 31, 2013, from leases or properties north of 68 degrees North latitude. A tax credit under this subsection may not reduce a producer's tax liability for a calendar
year under AS 43.55.011(e) below the amount calculated under AS 43.55.011(f). The amount of the tax credit for a barrel of taxable oil subject to this subsection produced during a month of the calendar year is

(1) $8 for each barrel of taxable oil if the average gross value at the point of production for the month is less than $80 a barrel;

(2) $7 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $80 a barrel, but less than $90 a barrel;

(3) $6 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $90 a barrel, but less than $100 a barrel;

(4) $5 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $100 a barrel, but less than $110 a barrel;

(5) $4 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $110 a barrel, but less than $120 a barrel;

(6) $3 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $120 a barrel, but less than $130 a barrel;

(7) $2 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $130 a barrel, but less than $140 a barrel;

(8) $1 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $140 a barrel, but less than $150 a barrel;

(9) zero if the average gross value at the point of production for the month is greater than or equal to $150 a barrel.

*Sec. 22.* AS 43.55.025(m) is amended to read:

(m) The persons that drill the first four exploration wells in the state and within the areas described in (o) of this section on state lands, private lands, or federal
onshore lands for the purpose of discovering oil or gas that penetrate and evaluate a prospect in a basin described in (o) of this section are eligible for a credit under (a)(6) of this section. A credit under this subsection may not be taken for more than two exploration wells in a single area described in (o)(1) - (6) of this section. Notwithstanding (b) of this section, exploration expenditures eligible for the credit in this subsection must be incurred for work performed after June 1, 2012, and before July 1, 2017, except that expenditures to complete an exploration well that was spudded but not completed before July 1, 2017, are eligible for the credit under this subsection July 1, 2016. A person planning to drill an exploration well on private land and to apply for a credit under this subsection shall obtain written consent from the owner of the oil and gas interest for the full public release of all well data after the expiration of the confidentiality period applicable to information collected under (f) of this section. The written consent of the owner of the oil and gas interest must be submitted to the commissioner of natural resources before approval of the proposed exploration well. In addition to the requirements in (c)(1), (c)(2)(A), and (c)(2)(C) of this section and submission of the written consent of the owner of the oil and gas interest, a person planning to drill an exploration well shall obtain approval from the commissioner of natural resources before the well is spudded. The commissioner of natural resources shall make a written determination approving or rejecting an exploration well within 60 days after receiving the request for approval or as soon as is practicable thereafter. Before approving the exploration well, the commissioner of natural resources shall consider the following: the location of the well; the proximity to a community in need of a local energy source; the proximity of existing infrastructure; the experience and safety record of the explorer in conducting operations in remote or roadless areas; the projected cost schedule; whether seismic mapping and seismic data sufficiently identify a particular trap for exploration; whether the targeted and planned depth and range are designed to penetrate and fully evaluate the hydrocarbon potential of the proposed prospect and reach the level below which economic hydrocarbon reservoirs are likely to be found, or reach 12,000 feet or more true vertical depth; and whether the exploration plan provides for a full evaluation of the wellbore below surface casing.
to the depth of the well. Whether the exploration well for which a credit is requested under this subsection is located within an area and a basin described under (o) of this section shall be determined by the commissioner of natural resources and reported to the commissioner. A taxpayer that obtains a credit under this subsection may not claim a tax credit under AS 43.55.023 or another provision in this section for the same exploration expenditure.

* Sec. 23. AS 43.55.028(e) is amended to read:

   (e) The department, on the written application of a person to whom a transferable tax credit certificate has been issued under AS 43.55.023(d) or former AS 43.55.023(m) or to whom a production tax credit certificate has been issued under AS 43.55.025(f), may use available money in the oil and gas tax credit fund to purchase, in whole or in part, the certificate. The department may not purchase a total of more than $70,000,000 in tax credit certificates from a person in a calendar year. Before purchasing a certificate or part of a certificate, [IF] the department shall find [FINDS] that

   (1) the calendar year of the purchase is not earlier than the first calendar year for which the credit shown on the certificate would otherwise be allowed to be applied against a tax;

   (2) the application is not the result of the division of a single entity into multiple entities that would reasonably be expected to apply as a single entity if the $70,000,000 limitation in this subsection did not exist [APPLICANT DOES NOT HAVE AN OUTSTANDING LIABILITY TO THE STATE FOR UNPAID DELINQUENT TAXES UNDER THIS TITLE];

   (3) the applicant's total tax liability under AS 43.55.011(e), after application of all available tax credits, for the calendar year in which the application is made is zero;

   (4) the applicant's average daily production of oil and gas taxable under AS 43.55.011(e) during the calendar year preceding the calendar year in which the application is made was not more than 50,000 BTU equivalent barrels; and

   (5) the purchase is consistent with this section and regulations adopted under this section.
* Sec. 24. AS 43.55.028(g) is amended to read:

  (g) The department shall [MAY] adopt regulations to carry out the purposes of this section, including standards and procedures to allocate available money among applications for purchases under this chapter and claims for refunds and payments under AS 43.20.046, 43.20.047, or 43.20.053 when the total amount of the applications for purchase and claims for refund exceed the amount of available money in the fund. The regulations adopted by the department

  (1) may not, when allocating available money in the fund under this section, distinguish an application for the purchase of a credit certificate issued under former AS 43.55.023(m) or a claim for a refund or payment under AS 43.20.046, 43.20.047, or 43.20.053;

  (2) must, when allocating available money in the fund under this section, grant a preference, between two applicants, to the applicant with a higher percentage of resident workers in the applicant's workforce, including workers employed by the applicant's direct contractors, in the state in the previous calendar year; in this paragraph, "resident worker" has the meaning given in AS 43.40.092(b);

  (3) must provide for the purchase of the amount equal to the first 50 percent of the credit repurchase limit for each person under (e) of this section at a rate of 100 percent of the value of the certificate or portion of the certificate requested to be purchased and the amount equal to the next 50 percent of the credit repurchase limit for each person under (e) of this section at a rate of 75 percent of the value of the certificate or portion of the certificate requested to be purchased.

* Sec. 25. AS 43.55.028 is amended by adding a new subsection to read:

  (j) If an applicant or claimant has an outstanding liability to the state directly related to the applicant's or claimant's oil or gas exploration, development, or production and the department has not previously reduced the amount paid to that applicant or claimant for a certificate or refund because of that outstanding liability, the department may purchase only that portion of a certificate or pay only that portion of a refund that exceeds the outstanding liability. After notifying the applicant or
claimant, the department may apply the amount by which the department reduced its
purchase of a certificate or payment for a refund because of an outstanding liability to
satisfy the outstanding liability. Satisfaction of an outstanding liability under this
subsection does not affect the applicant's ability to contest that liability. The
department may enter into contracts or agreements with another department to which
the outstanding liability is owed. In this subsection, "outstanding liability" means an
amount of tax, interest, penalty, fee, rental, royalty, or other charge for which the state
has issued a demand for payment that has not been paid when due and, if contested,
has not been finally resolved against the state.

* Sec. 26. AS 43.55.160(f) is amended to read:

(f) On and after January 1, 2014, in the calculation of an annual production tax
value of a producer under (a)(1)(A) or (h)(1) of this section, the gross value at the
point of production of oil or gas produced from a lease or property north of 68 degrees
North latitude meeting one or more of the following criteria is reduced by 20 percent:
(1) the oil or gas is produced from a lease or property that does not contain a lease that
was within a unit on January 1, 2003; (2) the oil or gas is produced from a
participating area established after December 31, 2011, that is within a unit formed
under AS 38.05.180(p) before January 1, 2003, if the participating area does not
contain a reservoir that had previously been in a participating area established before
December 31, 2011; (3) the oil or gas is produced from acreage that was added to an
existing participating area by the Department of Natural Resources on and after
January 1, 2014, and the producer demonstrates to the department that the volume of
oil or gas produced is from acreage added to an existing participating area. This
subsection does not apply to gas produced before 2022 that is used in the state or to
gas produced on and after January 1, 2022. **For oil and gas first produced from a
lease or property after December 31, 2016, a reduction allowed under this
subsection applies from the date of commencement of regular production of oil
and gas from that lease or property and expires after three years, consecutive or
nonconsecutive, in which the average annual price per barrel for Alaska North
Slope crude oil for sale on the United States West Coast is more than $70 or after
seven years, whichever occurs first.** For oil and gas first produced from a lease or
property before January 1, 2017, a reduction allowed under this subsection expires on the earlier of January 1, 2023, or January 1 following three years, consecutive or nonconsecutive, in which the average annual price per barrel for Alaska North Slope crude oil for sale on the United States West Coast is more than $70. The Alaska Oil and Gas Conservation Commission shall determine the commencement of regular production of oil and gas for purposes of this subsection. A reduction under this subsection may not reduce the gross value at the point of production below zero. In this subsection, "participating area" means a reservoir or portion of a reservoir producing or contributing to production as approved by the Department of Natural Resources.

*Sec. 27.* AS 43.55.160(g) is amended to read:

(g) On and after January 1, 2014, in addition to the reduction under (f) of this section, in the calculation of an annual production tax value of a producer under (a)(1)(A) or (h)(1) of this section, the gross value at the point of production of oil or gas produced from a lease or property north of 68 degrees North latitude that does not contain a lease that was within a unit on January 1, 2003, is reduced by 10 percent if the oil or gas is produced from a unit made up solely of leases that have a royalty share of more than 12.5 percent in amount or value of the production removed or sold from the lease as determined under AS 38.05.180(f). This subsection does not apply if the royalty obligation for one or more of the leases in the unit has been reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar year for which the annual production tax value is calculated. This subsection does not apply to gas produced before 2022 that is used in the state or to gas produced on and after January 1, 2022. For oil and gas first produced from a lease or property after December 31, 2016, a reduction allowed under this subsection applies from the date of commencement of regular production of oil and gas from that lease or property and expires after three years, consecutive or nonconsecutive, in which the average annual price per barrel for Alaska North Slope crude oil for sale on the United States West Coast is more than $70 or after seven years, whichever occurs first. For oil and gas first produced from a lease or property before January 1, 2017, a reduction allowed under this subsection expires on the earlier
of January 1, 2023, or January 1 following three years, consecutive or nonconsecutive, in which the average annual price per barrel for Alaska North Slope crude oil for sale on the United States West Coast is more than $70. The Alaska Oil and Gas Conservation Commission shall determine the commencement of regular production for purposes of this subsection. A reduction under this subsection may not reduce the gross value at the point of production below zero.

* Sec. 28. AS 43.55.160(h) is amended to read:

(h) For oil produced on and after January 1, 2022, except as provided in (b), (f), and (g) of this section, for the purposes of AS 43.55.011(e)(3), the annual production tax value of oil taxable under AS 43.55.011(e) produced by a producer during a calendar year

(1) from leases or properties in the state that include land north of 68 degrees North latitude is the gross value at the point of production of that oil, less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil and gas deposits located in the state north of 68 degrees North latitude or located in leases or properties in the state that include land north of 68 degrees North latitude, as adjusted under AS 43.55.170;

(2) before or during the last calendar year under AS 43.55.024(b) for which the producer could take a tax credit under AS 43.55.024(a), from leases or properties in the state outside the Cook Inlet sedimentary basin, no part of which is north of 68 degrees North latitude, other than leases or properties subject to AS 43.55.011(p), is the gross value at the point of production of that oil, less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil and gas deposits located in the state outside the Cook Inlet sedimentary basin and south of 68 degrees North latitude, other than oil and gas deposits located in a lease or property that includes land north of 68 degrees North latitude or that is subject to AS 43.55.011(p) or, before January 1, 2027, from which commercial production has not begun, as adjusted under AS 43.55.170;

(3) from leases or properties subject to AS 43.55.011(p) is the gross value at the point of production of that oil, less the producer's lease expenditures under
AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil and
gas deposits located in leases or properties subject to AS 43.55.011(p) or, before
January 1, 2027, located in leases or properties in the state outside the Cook Inlet
sedimentary basin, no part of which is north of 68 degrees North latitude from which
commercial production has not begun, as adjusted under AS 43.55.170;

(4) from leases or properties in the state no part of which is north of 68
degrees North latitude, other than leases or properties subject to (2) or (3) of this
subsection, is the gross value at the point of production of that oil less the producer's
lease expenditures under AS 43.55.165 for the calendar year incurred to explore for,
develop, or produce oil and gas deposits located in the state south of 68 degrees North
latitude, other than oil and gas deposits located in a lease or property in the state that
includes land north of 68 degrees North latitude, and excluding lease expenditures that
are deductible under (2) or (3) of this subsection or would be deductible under (2) or
(3) of this subsection if not prohibited by (b) of this section, as adjusted under
AS 43.55.170; a separate annual production tax value shall be calculated for

(A) oil produced from each lease or property in the Cook
Inlet sedimentary basin;

(B) oil produced from each lease or property outside the
Cook Inlet sedimentary basin, no part of which is north of 68 degrees
North latitude, other than leases or properties subject to (3) of this
subsection.

* Sec. 29. AS 43.55.165(a) is amended to read:

(a) For [EXCEPT AS PROVIDED IN (j) AND (k) OF THIS SECTION, FOR] purposes of this chapter, a producer's lease expenditures for a calendar year are

(1) costs, other than items listed in (e) of this section, that are

(A) incurred by the producer during the calendar year after

March 31, 2006, to explore for, develop, or produce oil or gas deposits located
within the producer's leases or properties in the state or, in the case of land in
which the producer does not own an operating right, operating interest, or
working interest, to explore for oil or gas deposits within other land in the
state; and
(B) allowed by the department by regulation, based on the department's determination that the costs satisfy the following three requirements:

(i) the costs must be incurred upstream of the point of production of oil and gas;

(ii) the costs must be ordinary and necessary costs of exploring for, developing, or producing, as applicable, oil or gas deposits; and

(iii) the costs must be direct costs of exploring for, developing, or producing, as applicable, oil or gas deposits; and

(2) a reasonable allowance for that calendar year, as determined under regulations adopted by the department, for overhead expenses that are directly related to exploring for, developing, or producing, as applicable, the oil or gas deposits.

* Sec. 30. AS 43.55.895(b) is amended to read:

(b) A municipal entity subject to taxation because of this section

(1) is eligible for [ALL] tax credits proportionate to its production taxable under AS 43.55.011(e); and

(2) shall allocate its lease expenditures in proportion to its production taxable under AS 43.55.011(e) [UNDER THIS CHAPTER TO THE SAME EXTENT AS ANY OTHER PRODUCER].

* Sec. 31. AS 43.55.900 is amended by adding a new paragraph to read:

(26) "regular production" has the meaning given in AS 31.05.170.

* Sec. 32. AS 43.70 is amended by adding new sections to read:

Sec. 43.70.025. Bond or cash deposit required for an oil or gas business. (a) At the time of applying for a license under this chapter, an applicant engaged in the business of oil or gas exploration, development, or production shall file a surety bond in the amount of $250,000 running to the state, conditioned upon the applicant's promise to pay all

(1) taxes and contributions due the state and political subdivisions; and

(2) persons furnishing labor or material or renting or supplying equipment to the applicant.
(b) In lieu of the surety bond required under this section, the applicant may file with the commissioner a cash deposit or other negotiable security acceptable to the commissioner in the amount of $250,000.

(c) The bond required by this section remains in effect until cancelled by action of the surety, the principal, or if the commissioner finds that the business is producing oil or gas in commercial quantities, by the commissioner.

Sec. 43.70.028. Claims against an oil or gas business. (a) A person having a claim against a person required to file a surety bond under AS 43.70.025 because of the failure to pay a liability described in AS 43.70.025(a) may bring suit upon the bond. A copy of the complaint shall be served by registered or certified mail on the commissioner at the time suit is filed, and the commissioner shall maintain a record, available for public inspection, of all suits commenced. This service on the commissioner shall constitute service on the surety, and the commissioner shall transmit the complaint or a copy of it to the surety within 72 hours after it is received. The surety on the bond is not liable in an aggregate amount in excess of that named in the bond, but if claims pending at any one time exceed the amount of the bond, the claims shall be satisfied from the bond in the following order:

1. material, equipment, and supplies delivered in the state;
2. labor, including employee benefits;
3. taxes and other amounts due to the city and borough, in that order;
4. repair of public facilities;
5. taxes and other amounts due to the state.

(b) If a judgment is entered against a cash deposit, the commissioner, upon receipt of a certified copy of a final judgment, shall pay the judgment from the amount of the deposit in accordance with the priorities set out in (a) of this section.

(c) An action described in (a) of this section may not be commenced on the bond more than three years after the cancellation of the bond.

* Sec. 33. AS 38.05.180(i); AS 41.09.010, 41.09.020, 41.09.030, 41.09.090; AS 43.20.053(j)(4); and AS 43.55.011(m) are repealed January 1, 2017.

* Sec. 34. AS 43.55.165(j) and 43.55.165(k) are repealed January 1, 2018.

* Sec. 35. The uncodified law of the State of Alaska is amended by adding a new section to
