BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:
Section 1. The uncodified law of the State of Alaska is amended by adding a new section to read:

FINDINGS. (a) The legislature finds that

1. in December 2019, a novel coronavirus known as severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) was first detected in Wuhan, Hubei province, People's Republic of China, leading to outbreaks of novel coronavirus disease (COVID-19) that have now spread globally;
2. on January 31, 2020, the United States Secretary of Health and Human Services declared a public health emergency under 42 U.S.C. 247d (Public Health Service Act);
3. to date, 50 states have confirmed cases of COVID-19, including confirmation of community transmission of COVID-19;
4. on March 11, 2020, the commissioner of health and social services certified to the governor that there is a high probability that COVID-19 presents a credible threat of an imminent outbreak of the disease in the state, meeting the definition of disaster under AS 26.23.900(2)(E);
5. on March 11, 2020, the governor issued a declaration of a public health disaster emergency under AS 26.23.020 in anticipation of the spread of COVID-19 to the state;
6. in the disaster declaration issued March 11, 2020, the governor found that a statewide response under AS 18.15.390 is required to address the public health disaster emergency and authorized the commissioner of health and social services and the adjutant general of military and veterans' affairs to take all actions necessary to address the public health disaster emergency;
7. on March 12, 2020, the Department of Health and Social Services and the governor announced that the first case of COVID-19 was diagnosed in an individual in Anchorage;
8. additional cases of COVID-19 are being diagnosed across the state;
9. the chief medical officer in the Department of Health and Social Services and the commissioner of health and social services have determined that it will take months of monitoring and active public health management, including closing public facilities, limiting
public events, and establishing quarantine and isolation protocols and enforcement under AS 18.15.390, to contain the spread of COVID-19;

(10) the adjutant general of the Alaska organized militia has determined that it may be necessary for the Department of Military and Veterans' Affairs, under the guidance of the commissioner of health and social services, to use personnel and other resources of the Department of Health and Social Services to institute actions under AS 26.23.020, including provisions to perform or facilitate performance of disaster emergency services.

(b) Based on the findings in (a) of this section, the legislature finds that it is in the best interest of the state to extend the public health disaster emergency declaration issued by the governor on March 11, 2020, and all the powers granted under AS 18.15.390 and AS 26.23.020, until September 1, 2020.

(b) Notwithstanding (a) of this section, if the commissioner of health and social services certifies to the governor that there is no longer a present outbreak of novel coronavirus disease (COVID-19) or a credible threat of an imminent outbreak of COVID-19, the governor shall issue a proclamation that the public health disaster emergency identified in the declaration issued by the governor on March 11, 2020, no longer exists as of a date determined by the governor. The certification must be based on specific information received from a state or federal agency or another source that the commissioner determines to be reliable.
