Regarding HB179

Dear House Finance Chair & Committee,

My name is Anne Lee and I'm from Petersburg. I am a homeless animal caregiver and advocate.

I support this bill as well as laws, grants and programs that enable communities to help themselves to help their animals.

Our big, beautiful state has unique challenges regarding animal health and welfare.

From city, to bush, to island town, pet overpopulation and encroaching disease are of major concern. Suffering due to lack of health care is never acceptable.

Dedicated volunteers and professionals are doing their best. It is often sad and always demanding. The rewards are endless for taking responsibility.

We seek support and backing from our state, whose needs we also serve.

Thank you, Anne Lee
