**RE:** HB 78 Incentives for Certain Medical Providers

writing in support of HB 78. Passing this bill would be instrumental in ensuring that rural communities such as where I am  
ly working to have the incentives that would draw and retain professional clinical social workers that would remain and or join  
ies that desperately require these workers to help provide the highest quality of services for the community they serve. HB 78  
la provide incentives for community members to seek continuing education to enhance their ability to become qualified  
s in their home community. As a Clinical Social Worker who has seen the need for services and know of the need for  
to be able to remain working in these rural areas any extra incentives would benefit retention while reducing the financial  
tions that this type of education requires.
