September 14, 2011

Liz Clement
Rep. Herron Legislative Aide

Liz Clement:

Thank your for taking the time to meet and consider this important issue.
I understand the need to be fiscally conservative, but I see - everyday - the impact of our healthcare workforce shortage and am truly fearful for our future.

This bill is more cost-efficient and results-producing than other methods
- loan repayment and incentives have been shown to effectively help alleviate shortage problems in other states. The proposed program designed for Alaska will provide much needed relief for our state.

It will take a multifaceted effort to solve our healthcare workforces shortage - this bill is foundational to that effort.
Please help us touch the future!

Sincerely,

Jan Abbott
