Subject: Senate Bill 176

Thank you for the work you are doing on Senate Bill 176. Expanding concealed carry rights to the University of Alaska campuses is the safe thing to do. "Gun-free" zones have proved to be of very little safety value of late; look no further than Aurora Colorado and Newtown Connecticut. Thank you again, for supporting our second amendment rights! I have a vested interest in the University of Alaska, being an alumni, the class of 1977 at the Fairbanks campus.
