Subject: guns on campus

President Gamble,

I wanted to thank you for taking a stand against allowing guns on University of Alaska campuses. For the record, I am not anti-gun. I am a tutor in a math lab on the Fairbanks campus. Each semester I get to know and come to really care about the students. But I see that they are stressed, sleep-deprived, for the most part not yet fully mature, and generally amped up on overly-caffeinated energy drinks. To throw guns into this scenario is ludicrous. If Senate Bill 176 passes, I will be on the alert for any evidence of guns in the math lab and I assure you the minute I realize one is present, I will walk out without courtesy of giving notice.

Thank you again for making the safety of UA students, faculty and staff a priority.

Linda DeFoliart
