To: Sen. John Coghill

Subject: SB 176

Senator Coghill;

Senate Bill Number 176 appears to be a good bill except for page two of the bill, lines nine through 11. Lines nine through 11 on page two of this bill would still allow the University to prohibit possession of firearms and knives in "restricted access area of university buildings;"

It seems to me lines nine through 11 on page two of the bill changes nothing. It would still allow the University to restrict access in whatever areas they so choose to call "restricted."

There in lies the problem. Wherever firearms are "restricted" these "restricted" areas become potential murder zones for those intending to commit harm.

Stop the nonsense and do away with "restricted" areas.

I have the God given right to defend and protect myself and my loved ones no matter where I am - no matter if I am at home, church, school, post office, work, etc.

Respectfully,

Al Dordan
