Subject: Right to Carry on University Campus

Dear Senator:

I respectfully urge you to SUPPORT Senate Bill 176 which would allow law-abiding citizens to possess and carry firearms for self-defense on the University of Alaska's campuses by limiting the Board of Regent's ability to regulate the possession and carry of firearms on campuses.

As I'm sure you know, gun-free ("kill") zones are some of the most dangerous places to be in America. This common sense legislation will allow the students to defend themselves, like other citizens.

Thank you for your consideration,

Ted E. Baker
