Subject: I support SB 176

Dear Senator,

I just want to contact you to show my support in your sponsoring of this bill. Every time I see a sign prohibiting guns on my campus of University of Alaska Fairbanks I worry for the well being of my peers and myself. I think this bill is a great way to battle this Alaskan injustice and fight for the 2nd amendment. Sometimes the signs are almost comical. Reading: Attention Criminals, Guns Prohibited, with a diagram; this automatically gives criminals the reassurance that they will not be easily opposed and can do what they please. Please let me know if there is anything else I can do to join this effort to bring justice to Alaskan Universities.

Also.

There are a interesting, and likely to drawn out point that may be interesting to bring to the table.

This injustice targets the poor.

Those that are financially challenged are often forced between the decision of to go to college in Alaska, or to not go at all. Alaska colleges give competitively better rates to Alaskans and provide degrees that are often well applied within the state. The large amount of financially challenged that choose to go to Alaska Colleges and Universities don't get the choice to go somewhere where they have the right to protect themselves during their education. This boils down to the fact that for the Alaskan poor to attempt what may be the American dream they must risk their personal safety in doing so.

Have a nice day,

James E. Kari
