Subject: Written testimony on behalf of Rhonda Atkins

I don't believe a sign saying "No weapons on campus" is going to deter a shooter, nor is asking them to put the weapon away! We should either get metal detectors or arm the Security Guards and office staff. With most of the mass shootings we see, if one person had had a weapon, many lives would have been saved. If criminals know SOMEONE has a gun, they are less likely to enter, and even they do, they won't shoot as many people as they want, as is the case now! We are "sitting ducks".

Thank you,

Rhonda Atkins
