	Date

## FISCAL NOTE

STATE OF ALASKA  
2011 LEGISLATIVE SESSION

BILL NO. HB 37

### Analysis

This legislation mandates that net metering services be provided by certain economically regulated utilities, establishes conditions for interconnection and net metering, exempts certain systems of an electric utility, and allows the Regulatory Commission of Alaska (RCA) to modify or waive a requirement in whole or in part.

This legislation would require that certain factors be recognized or considered when the RCA reviews net metering issues. The RCA expects to implement the provisions of this legislation with existing resources.
