Tok, Alaska 99780

## Representative Mike Cronk

### **Sponsor Statement**

#### **House Bill - 358**

#### **Identification Protection**

In this high-tech world Artificial Intelligence has become a lightning rod for debate.

HB - 358 is written as simply as possible to address the use of AI to create false identities and cause harm.

Literally everything we see and hear now can be called into question.

Is it real, is it genuine, or is it AI created or enhanced.

Your voice, your image will only be yours and safe from harm if safeguards are put into place.
