April 15, 2019

Dear House Fisheries and House Resources Committee,

I am writing in opposition to the confirmation of Karl Johnstone to the Board of Fisheries. His history on the Board of Fisheries is incredibly contentious, and he is openly biased against commercial fishermen -- the tens of thousands of small business owners and Alaskan families who make up a large part of Alaska's economy and culture.

All Alaskans depend on a fair, transparent, and balanced public process and diverse representation on the Board of Fisheries. Johnstone's confirmation would lead to a board that is heavily unbalanced at this time. Members of the Board of Fisheries have a duty to protect our natural fishery resources first and foremost, and also to delicately handle the difficult issues of allocation between user groups. It is imperative throughout this process that personal biases do not interfere with these decisions. During his prior terms on the Board of Fisheries, his decisions did not reflect the ability to keep personal biases out of the board process.

As an Alaskan resident, I urge you to deny Johnstone's confirmation. Alaska needs public figures who are willing to serve the entire state and provide fair, balanced, and transparent decision-making.

Thank you for your time and consideration of my opposition to Karl Johnstone.

A handwritten signature in dark ink, appearing to read "Robert Beedle", followed by a horizontal line.

Robert Beedle

His history on the Board of Fisheries is incredibly contentious, and he is openly biased against commercial fishermen -- the tens of thousands of small business owners and Alaskan families who make up a large part of Alaska's economy and culture.

All Alaskans depend on a fair, transparent, and balanced public process and diverse representation on the Board of Fisheries. Johnstone's confirmation would lead to a board that is heavily unbalanced at this time. Members of the Board of Fisheries have a duty to protect our natural fishery resources first and foremost, and also to delicately handle the difficult issues of allocation between user groups. It is imperative throughout this process that personal biases do not interfere with these decisions. During his prior terms on the Board of Fisheries, his decisions did not reflect the ability to keep personal biases out of the board process.

As an Alaskan resident, I urge you to deny Johnstone's confirmation. Alaska needs public figures who are willing to serve the entire state and provide fair, balanced, and transparent decision-making.

Thank you for your time and consideration of my opposition to Karl Johnstone.
