2009	2	2	2	***	***

Figure 2.

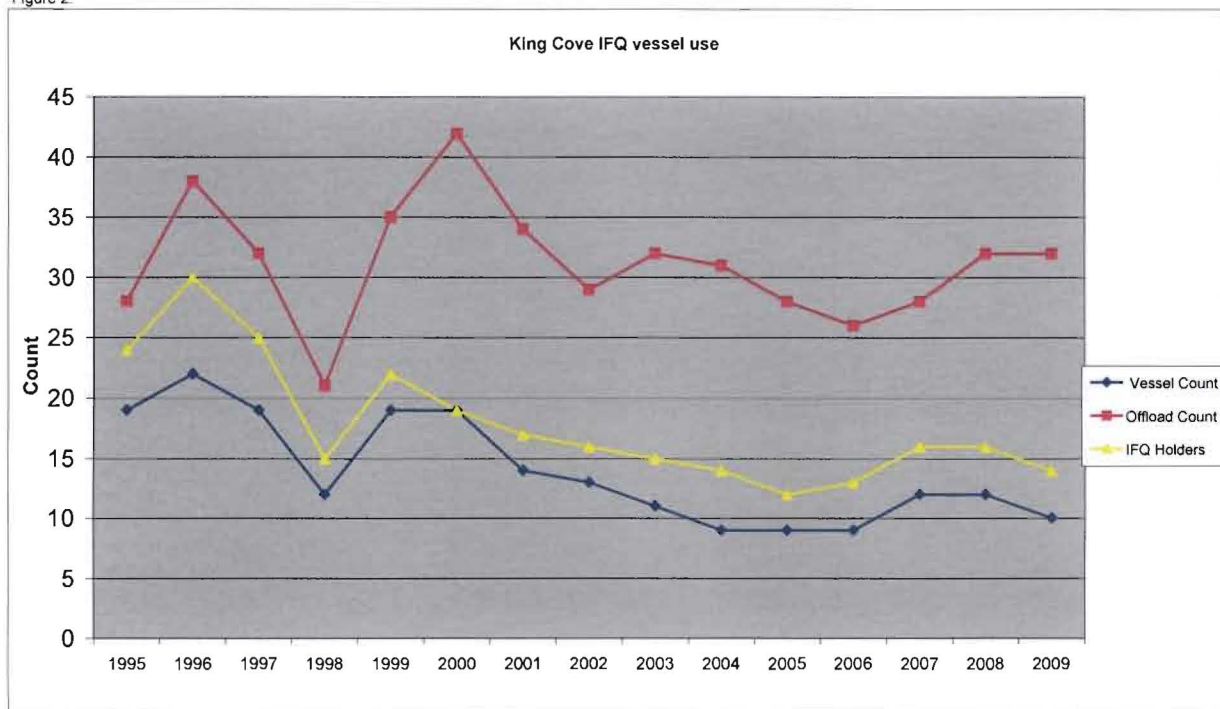

Notes:

- * Indicates that the data may not be displayed because simple subtraction would allow confidential data to be computed.
- ** Indicates that the data are confidential because they are derived from the landings of fewer than three IFQ permit holders.
- *** Indicates that the offloading vessels delivered to fewer than three Register Buyers (RB) permit holders.
- 1. Halibut weights are reported in net (headed and gutted) pounds; sablefish weights are reported in round pounds.
- 2. Residence determinations are based on unverified self-reported addresses provided by QS holders.
- 3. Estimated earnings (dollar amounts) are nominal; they are not adjusted for inflation nor by year.
- 4. Table 1:
 - a. "2009 Equivalent Pounds" are IFQ pounds derived from all QS held by residents of the subject community. They are computed using 2009 Quota Share Pool and TACs; therefore, they are comparable across all reported years. These reported pounds include pounds derived from QS held in all IFQ management areas.
 - b. "QS holders" includes all entities (including individuals, corporations, etc.) holding and reported the subject community, as a permanent business mailing address, as of the end of the indicated year.
- 5. Tables 2 and 3:
 - a. "Fishable Pounds" are calculated from amounts of QS held by all residents of the subject community as of the end of the indicated year. These amounts are adjusted for "overages and underages" resulting from prior years fishing activities.
 - b. "Pounds Landed" display the actual pounds landed during the indicated year.
 - c. "Estimated Earnings" are calculated by multiplying the actual pounds landed by the estimated ex-vessel values as reported by the CFEC, State of Alaska for each area. (<http://www.fakr.noaa.gov/ram/ifqreports.htm#special>) Annual Ex-Vessel Prices)
 - d. "Individuals making landings" includes all individuals with recorded landings of IFQ derived from QS held by persons reporting business address in subject community (as displayed on Table 1). The total includes hired skippers; accordingly, in some instances, the total number of individuals with landings may exceed the total number of "persons" who hold QS.
- 6. Table 4:
 - a. "Use of port" shows the number of distinct vessels that landed IFQ in this location, regardless of the vessels homeport and of the IFQ permit holder.
 - b. Only years landings are shown.

IFQ Community Report for King Cove
