Representative Claman,

Please oppose HB 15, which is currently before the House Judiciary Committee.

We have seen a lot of social change lately, culminating with the Supreme Court decision to redefine our nation's longstanding definition of marriage.

Because of the fast rate of change, some activists are seizing the moment to propose some very ridiculous changes to our laws and even our vocabulary to reflect every possible viewpoint out there, leading to impossibly difficult legal decisions and incoherency.

HB 15 is ridiculous and unneeded. The wording of existing law is in line with our State Constitution and accepted language of our society. We do not need the extreme activists behind this bill to throw our laws into further ambiguity and legal confusion.

Thank you for your service to our State.

How idiotic!!! Please tell me our state government doesn't think this is more important than solving the increase in crime in our cities, the debt crisis, and a governor that has "stolen" part of my PFD two years in a row!
