

Dear Legislators,

I am a resident and voter in Homer who stands in strong **opposition** to the Constitutional amendment to **repeal** marriage defined between one man and one woman.

Our state and nation is founded as a Constitutional Republic based upon the Rule of Law, NOT a democracy shifted to and fro by mob rule. Sending an amendment of our state Constitution to voters based upon societal pressures by people who represent less than 3% of our population is treading on a slippery slope.

I asked my teenage daughter what she thought about amending the Constitution regarding marriage. Her reply: "we shouldn't change it because things are confusing enough as it is."

Our children and society are looking for stability. The Constitution based upon the Rule of Law gives stability and guidance that is sure. When people feel secure and stable; they are at peace.

As lawmakers; I encourage you to promote peace and stability through your legislation by adhering to the established Rule of Law in our wise national and state Constitutions.

Respectfully,
Sarah Vance
