FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION

BILL NO. HB 01

Analysis

This bill is designed to increase voter participation by simplifying the voter registration process and by simplifying the absentee by mail and absentee in person processes.

This bill will have an impact on the Division of Elections (DOE) internal processes and computer database programming. Specifically, it will impact DOE's Online Voter Registration System programming, Voter Registration Electronic Management System programming, absentee in person processes, and questioned ballot processes.

In order to implement the requirements of House Bill 1, changes are necessary to the DOE's existing voter registration and election management system to automate the inactivation of the Permanent Absentee Voting List. The division anticipates that House Bill 1 changes will require the division to contract for additional database development and enhancement of our existing system for signature verification. The cost of additional hours for programming will be mitigated as the division will prioritize these enhancements over others covered under the existing maintenance agreement with our vendor.
