

## HB 316- Explanation of changes

- Eliminates Section 4 and 5 of HB316
  - INDIRECT COURT RULE: was inserted into legislation to err on the side of caution for court rules but this legislation will not interfere with court rules.
- Eliminates Sec. 3 of HB316
  - Section 3 of this legislation addresses the public records act but with previous sections it becomes redundant and was requested to be taken out because of the possibility of litigation.
- Allows an opt-in program for the Department of Public Safety.
  - The reasoning for this part of the amendment is to take some of the burden off the department and placed on the individual with the record to make the effort to have their history become confidential.
