

**CS FOR HOUSE CONCURRENT RESOLUTION NO. 23(RES)**

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTIETH LEGISLATURE - SECOND SESSION

**BY THE HOUSE RESOURCES COMMITTEE**

**Offered: 3/29/18**

**Referred: Rules**

**Sponsor(s): REPRESENTATIVES JOSEPHSON, Drummond, Kreiss-Tomkins**

**A RESOLUTION**

1   **Supporting enhanced efforts to protect wildlife and domestic animals in the state from**  
2   **infectious diseases, foreign pathogens, and nonendemic parasites.**

3   **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

4       **WHEREAS** the state contains some of the most productive and unique ecosystems on  
5 the planet; and

6       **WHEREAS** the livestock and wildlife resources of the state hold intrinsic value to  
7 the state, including economic value reaching into the billions of dollars annually; and

8       **WHEREAS** the state's wildlife is enjoyed by myriad user groups for hunting,  
9 trapping, viewing, and general outdoor recreation; and

10       **WHEREAS** the Alaska State Legislature has the responsibility under the Constitution  
11 of the State of Alaska to manage its natural resources, including wildlife, for the benefit of all  
12 the people of the state; and

13       **WHEREAS** the state subscribes to science-based livestock and wildlife management;  
14 and

15       **WHEREAS** the state's wildlife managers are tasked with providing for a sustained  
16 yield harvest; and

1       **WHEREAS** the wildlife of the state is under continuous and increasing threat from  
2 foreign pathogens, infectious diseases, and nonendemic parasites; and

3       **WHEREAS** pathogen and disease transmission to domestic animals and wildlife in  
4 other areas of North America has resulted in catastrophic die-offs and extirpation of distinct  
5 wild populations; and

6       **WHEREAS** similar pathogen and disease transmission to domestic animals has  
7 resulted in costly and problematic die-offs; and

8       **WHEREAS** screening, reporting, and mitigation are proven and widely used tools for  
9 preventing the import and transmission of disease pathogens to wild populations as well as  
10 domestic animals;

11       **BE IT RESOLVED** that the Alaska State Legislature encourages agencies to gather  
12 information, perform tests, and collect data on infectious diseases, foreign pathogens, and  
13 nonendemic parasites in the state to make science-based management decisions to support  
14 enhanced efforts to protect the state's wildlife and domestic animals from infectious diseases,  
15 foreign pathogens, and nonendemic parasites; and be it

16       **FURTHER RESOLVED** that the Alaska State Legislature encourages the  
17 Department of Fish and Game, Department of Natural Resources, and Department of  
18 Environmental Conservation, including the office of the state veterinarian, to take necessary  
19 and prudent measures to detect and identify the presence of infectious diseases, foreign  
20 pathogens, and nonendemic parasites that threaten wildlife and domestic animals in the state  
21 and to engage in actions to prevent the spread of those diseases and pathogens to at-risk  
22 wildlife and domestic animals.
