I am writing with a request that you consider the passage of HB 214 - the renaming of a portion of the Alaska Safe Children's Act as Bree's Law.

By adding Bree's name to this act, you give it a voice. Until I heard the story of Bree via a Skype meeting with her parents at the Valdez High School library earlier this week, I can say that I didn't even realize Alaska had the "Safe Children's Act".

Our children and parents like myself need information on the topic of teen dating. We need to become aware of what to watch for with regard to potential negative situations, and also learn how to protect our children and their friends. Bree Moore was a real person that people can relate to - parents and children alike.

Just like the "Amber Alert System", let's make Bree's Law something positive for the State of Alaska and remove ourselves from the top of the list with regard to violence in this country.

Thank you for your consideration,
Dalon D. Gage
