Subject: Pass Bree's Law
Date: Wednesday, April 25, 2018 10:23:45 AM

I am reaching out to you because I am a strong advocate for passing Bree's Law. I respectfully request HB214 to be passed out of senate finance committee in its current form to a floor vote.

Since the law was originally passed, Alaska teens have seen a dramatic decrease in reported teen dating violence- with over 1,500 less reported victims in 2017.

Please consider our request so the law can continue to work for Alaska's teens and against violence.

Bree Moore was a close friend of mine. She was a wonderful person and no one knew she was experiencing any domestic problems from her boyfriend. Young people are so innocent in the way they think and uneducated about this subject. It needs to be made more of an issue to help these teens understand when lines are crossed and how to get help or get out of the situation. The statistics speak for themselves! 1,500 less In 2017, that is HUGE! I am disheartened that any person would try to deny this. Please consider our requests. You will be helping so many people in the future if you do.

Thank you for your time in reading this,

Regards,

Blisin Baer
