4 \* **Section 1.** The uncodified law of the State of Alaska is amended by adding a new section  
5 to read:

6 LEGISLATIVE FINDINGS. The legislature finds that

7 (1) approximately 43,300 students in the state do not meet Alaska English  
8 Language Arts standards as indicated by the Alaska Measures of Progress test, and reading  
9 proficiency scores on the National Assessment of Educational Progress for students in the  
10 state were stagnant from 2003 through 2015;

11 (2) results of student assessments indicate that reading instruction and reading  
12 proficiency for students in the state should be improved;

13 (3) dyslexia, the most common specific learning disability, affects between  
14 three and 17 percent of the student population and accounts for approximately 80 percent of

1 all specific learning disabilities;

2 (4) the scientific consensus is that, when learning to read, typical and atypical  
3 learners have overlapping instructional needs, including the need for highly knowledgeable  
4 and skilled reading teachers to improve reading proficiency outcomes;

5 (5) parents and other caregivers are responsible for ensuring that their children  
6 learn to read through the public school system or other means of instruction; and

7 (6) the residents of this state also hold the legislature, the governor, and the  
8 state Board of Education and Early Development accountable for student reading proficiency  
9 outcomes and for leading reforms of the state's public education system.
