Re: Sectional analysis of HB 266, the practice of naturopathy

Kindly note that a sectional analysis of a bill or resolution should not be considered an authoritative interpretation of the measure itself. The legislation is the best statement of its contents.

Section 1. Amends Sec. 08.45.050 (Restrictions on practice of naturopathy) to allow a person who practices naturopathy to give, prescribe, or recommend a medicine that is derived from or is a concentrate of or is an extract of a plant, tree, root, moss, fungus, or other natural substance if the medicine is not a controlled substance.

Section 2. Provides for an immediate effective date.
