Please support Senate Bill 121. As a state employee I am willing to receive less pay than working in the private sector as long as I have the security of knowing that when I retire I will not become a burden on my family and society. I also want to be able to afford to stay in Alaska. I love my job, the work I do, and my co-workers, but will not be able to stay in the employment of the state if the retirement system does not change. I will be forced to work into my 70's or find higher paying work in the private sector where I will be eligible for social security in addition to what I am able to save for retirement. With the current tier four system I watch my contributions dwindling away due to a volatile stock market. Of the \$600 put in retirement last quarter (half by me, half by the state), I lost \$400. I feel like I am throwing money into a garbage can every paycheck. I am willing to give my dedication, hard work, and talents to the state of Alaska for the next 25 years and all I ask in return is the state give back the security of an acceptable retirement plan.

Senator Wielechowski,

Thank you for all that you do for the State of Alaska and it's people.

I'm writing to ask that you please SUPPORT SB 121.

For those that want to make their lives here in Alaska this bill will make the difference between being able to do so and not.

Thank you,
Vanessa George

Senator Wielechowski,

You are currently not my Senator, but with the new re-districting, you will.

I am a dedicated, hard working state employee. I am also a life long Alaskan and am passionate about my service to the residents of this state. I am concerned about tier IV's inadequate retirement health benefit and have considered leaving my state service specifically to find an adequate retirement health plan. I missed the tier III eligibility by less than a month.

Alaska communities and families deserve the best services from qualified public employees attracted by competitive retirement benefits.

Alaska industry needs the support and structure administered by qualified public employees attracted by competitive retirement benefits to facilitate growth and secure a fair return for the public.

Please SUPPORT SB 121.

Thank you,

Margaret Hughes
4837 Klamath Falls Lane
Anchorage, AK 99517

I am one of your constituents living at 7000 Dickerson Drive, Anchorage, Alaska, in Muldoon. My husband and I are both State employees. As a state employee, and a member of this state, I ask you to support SB 121.

Alaska communities and families deserve the best services from qualified public employees attracted by competitive retirement benefits.

Alaska industry needs the support and structure administered by qualified public employees attracted by competitive retirement benefits to facilitate growth and secure a fair return for the public.

Please SUPPORT SB 121.

Thank you for your consideration.

If the capital was in a location that could be accessed by the financially strapped public due to energy costs I would be there in person to testify in favor of restoring the combined benifits provisions.

Move the capital to Anchorage or somewhere on the road system.

Don Callahan
