We support building the Fish Creek Trail in the Railroad right of way. The connection to the Coastal Trail will enhance the use of this scenic trail.

Date: Saturday, February 7, 2026 10:18:23 AM

Dear Members of the House Judiciary Committee,

I'm writing to support preserving the railroad right-of-way that enables the Fish Creek Trail connection.

I've lived near the proposed connection for about 20 years and regularly walk and bike in this area. This short segment would meaningfully improve neighborhood connectivity to the Coastal Trail, create useful walking and biking loops, and provide a direct link to the Fish Creek Trail, which is a really great trail and heavily used.

The project has strong public support, a \$1.75 million local match, and roughly \$15 million in federal funding attached.

Whatever the merits of HB 136 as a property rights and fee policy bill, it should not introduce legal uncertainty that allows a small number of adjacent owners to block or delay a public transportation use that benefits the city as a whole. If HB 136 moves, please include clear language preserving the ability of DOT and the Municipality to build public trails within the railroad transportation corridor when designed to avoid adjacent private land and when they do not unreasonably interfere with railroad operations.

If that protection is not included, I encourage you to hold HB 136.

Thank you for your work on behalf of Alaskans.

My name is Janet Colón a fifty year resident of Spenard, that used to walk a Fish Creek Trail. I strongly request that you support this bill that improves our community and invites tourist to enjoy our beautiful area of town. Thank you Janet

Greetings -

I am writing to support HB 136, as long as it does not interfere with our ability to build and enjoy the long-overdue Fish Creek Trail. My family has lived in Turnagain for decades. We used the Fish Creek trail alignment for walks for many years until it was obstructed. We have now supported reestablishment of the trail for years. The delays and obstructions of the few to the detriment of the many is outrageous. It reminds me of the same occurring when the coastal trail was being developed. Hopefully the delays will soon end and the community can enjoy a new recreational resource.

Thank you.

I am writing in support of the Fish Creek trail project. Bike and multi use trails and public access is important to me.
