Members and chairperson

I respectfully and absolutely disagree with proceeding with this bill

WHEREAS art. VIII, sec. 2, Constitution of the State of Alaska, mandates that the state's natural resources be developed "for the maximum benefit of its people," creating an imperative for both short- and long-term economic outcomes;

This bill only looks at the short term outcomes and does not address a single long term issue. It is also is not for all people.

The answer must be no or you must fix the past issues and set strict guidelines for clean air, water, land, wildlife, and our seas.

We need healthy people. This guarantees death. The land discussed in the bill has never belonged to Alaska. This is tribal land. This oversteps on tribal sovereignty. This bill is also full of lies. I am very disappointed. I do not claim you anymore.

Thank you  
Susan Allmeroth
