

AMENDMENT

OFFERED IN THE HOUSE

BY REPRESENTATIVE COSTELLO

TO: HJR 27

1 Page 3, following line 11:

2 Insert new material to read:

3 **"WHEREAS** advanced nuclear technologies, including small modular reactors and
4 microreactors, offer the state a reliable, nonintermittent, zero-carbon baseload energy source
5 capable of supporting industrial development, lowering energy costs, and strengthening long-
6 term statewide energy security; and

7 **WHEREAS** the strategic deployment of nuclear microreactors in rural regions of the
8 state at military installations and in emerging industrial hubs would provide stable power
9 essential for national security operations, Arctic readiness, and the development of critical
10 mineral and rare earth projects across the state; and"

11
12 Page 5, line 8:

13 Delete "Defense"

14 Insert "War"
