ANALYSIS: (Attach a separate page if necessary)

This bill requires the fiduciaries of state investment funds to divest of certain investments in publicly traded companies that conduct business operations or have direct investments in business operations in Sudan. While Treasury believes that active and passive separate account managers will not charge additionally for divestment, Treasury does not believe that managers of passive commingled funds will be able to comply with the divestment policy and that Sudan-free replacement funds will need to be identified. Currently, there are 25 funds (primarily participant directed funds) that would need to be replaced. Costs for conducting a search for a single fund is approximately \$25,000, although multiple fund searches would result in reduced costs. Other costs to be considered would include the opportunity cost of staff time to implement new contracts and any cost impact resulting from introducing additional plan options to participants. The effect this bill will have on investment performance is unknown.
