6 It is the intent of the legislature that the Department continues to aggressively pursue 7 Medicaid cost containment initiatives. Efforts should continue where the Department 8 believes additional cost containment is possible including further efforts to contain travel 9 The Department must continue efforts imposing regulations controlling and expenses. 10 materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be 11 continued utilizing existing resources to impose regulations screening applicants for 12 Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state 13 services. The department must address the entire matrix of optional Medicaid services, 14 reimbursement rates and eligibility requirements that are the basis of the Medicaid growth 15 algorithm. This work is to utilize the results of the Medicaid Assessment and Planning 16 analysis. The legislature requests that by January 2010 the Department be prepared to present 17 projections of future Medicaid funding requirements under our existing statute and regulations 18 and be prepared to present and evaluate the consequences of viable policy alternatives that 19 could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are \$50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

24 It is the intent of the legislature that the Department of Health and Social Services make a 25 single 'upfront' payment for any grant award that is \$50,000 or less and includes a signature of 26 the grantee certifying compliance with the terms of the grant with their approved application. 27 Signature of the grantee would also certify that if a final report certifying completion of the 28 grant requirements is not filed, future grants will not be considered for that grantee until all 29 requirements of prior grants are completed satisfactorily. In the event a grantee is deemed 30 ineligible for a future grant consideration due to improper filing of final reports, the grantee 31 will be informed about the department's procedures for future consideration of grant 32 eligibility. The department will establish procedures to consider retroactivity for specific grant 33 consideration or express that the retroactivity cannot be considered for certain grants during

11 It is the intent of the legislature that the department continue developing policies and 12 procedures surrounding the awarding of recurring grants to assure that applicants are regularly 13 evaluated on their performance in achieving outcomes consistent with the expectations and 14 missions of the Department related to their specific grant. The recipient's specific 15 performance should be measured and incorporated into the decision whether to continue 16 awarding grants. Performance measurement should be standardized, accurate, objective and 17 fair, recognizing and compensating for differences among grant recipients including acuity of 18 services provided, client base, geographic location and other factors necessary and appropriate 19 to reconcile and compare grant recipient performances across the array of providers and 20 services involved.
