PREVENTION ACCOUNT BALANCE

* Nothing added for potential increases in cost recovery caused by intent to collect from other agencies. Number represents estimated collections for FY2009 use.

WHAT THE 4¢ SURCHARGE PAYS FOR

OIL AND HAZARDOUS SUBSTANCE, SPILL PREVENTION AND RESPONSE

- Standards and regulation to protect the environment from releases or oil or hazardous substances.
- Establishment and maintenance of a spill response capability.
- Investigation, evaluation, containment, and/or cleanup of a release or threatened release of oil or hazardous substances.
- Restoration of the environment.
- Review of oil discharge prevention and contingency plans.
- Training, response exercises, inspections, and tests.
- Verification of proof of financial responsibility.
- Recovery of state costs.

IS IT ENOUGH?

- Revenues continue to decrease as production decreases.
- Despite the change in surcharge amounts, expenditures continue to exceed projected revenues.
- Without additional revenues, the fund will be depleted in FY2014, which assumes no additional capital appropriations for clean-up costs.
