

## HB 26

### Adult Dental Program Facts

Prepared by Representative Mike Hawker's Office  
Information Provided by DH&SS

1. How many recipients have taken advantage of the program?

The unduplicated count of adult Medicaid recipients receiving these services since implementation of the services on April 1, 2007 – September 30, 2008 is approximately 9,300 adults. 283 dental providers participated in the program during this time period.

2. How much has been expended so far?

The expenditure information on preventative and restorative dental services for adult Medicaid recipients (in thousands of dollars) is:

Fiscal Year 2007 (4<sup>th</sup> Quarter): \$418.5

Fiscal Year 2008: \$4,640.5

*Providers have up to 12 months to submit Medicaid claims and the listed expenditures are based on the date the claims are paid.*

3. What services were the funds spent on?

The expenditures for categories of dental services for the period of April 1, 2007 – September 30, 2008 are:

- ♦ Fillings (1 and 2 surface amalgam and resin restorations): 9,313 procedures - \$1,015,196
- ♦ Root canal therapy on permanent teeth: 1,027 procedures (including 289 on front teeth) - \$435,412. *These are situations that would have often resulted in extracting teeth under the previous Medicaid Adult Dental program, which was limited to emergent care.*
- ♦ Dentures (includes full & partial dentures): 2,343 procedures - \$2,227,288. *Please note that the Medicaid program restricts denture coverage to every five years for adults, however procedures to adjust the fit of the dentures would be covered. The denture procedures and expenditures listed do not include repairs and/or adjustments to dentures.*

*Since providers have up to 12 months to submit Medicaid claims, these figures are based on claims that were processed by the 2<sup>nd</sup> week of November 2008 and could change based on future claims.*

## New Adult Dental Services

On March 29, 2007, Alaska's Medicaid for adults began covering \$1,150 worth of preventive dental care, such as exams and cleanings, each year for Alaskans 21 and older who receive Medicaid services.

New services also include fillings, root canals and dentures.

In the past, adult dental Medicaid only treated emergency pain relief and acute infection.

For a full list of new services in the state regulations passed last year authorizing the changes, [click here](#).

The limited amount of preventive and restorative coverage, as well as limited access to dentists who accept Medicaid patients, means patients will need to

- plan carefully with their dentists what to do first, and when it can be scheduled;
- keep their appointments.

Missed appointments are a primary complaint among dentists. The state recently clarified that when dentists charge patients for missed appointments, that policy includes Medicaid patients. Medicaid will not cover the cost of missed appointments.

For help finding a dentist who takes new Medicaid patients, call the recipient helpline: 1-800-780-9972.

## Funding

The state investment of \$1.3 million in general funds is being matched with federal funds and \$1.425 million a year from the [Mental Health Trust Authority](#), for a total annual cost of \$10.2 million, an eight-fold return on state general fund dollars.

The coverage expansion was added because infections in the mouth are no different than infections in other parts of the body. Dental infections cause pain, lost time at work and missing teeth can affect employability. Waiting for dental emergencies often results in more expensive dental care and limits the dentist's ability to address dental problems that will result in future dental emergencies.
