ADVOCATING FOR AMENDING TITLE 29 TO ALLOW LOCAL GOVERNMENT OPTION  
TO CONSIDER PROPERTY TAX CREDITS FOR IMPROVEMENTS TO AIR QUALITY  
CONDITIONS AND FUEL CONSUMPTION**

**WHEREAS**, Alaska Municipal League Board of Directors supports the issue of local governments being able to develop local responses to Alaska's energy solutions; and

**WHEREAS**, local taxation policy determined by Title 29 currently allows a property tax credit only for river bank habitat protection; and

**WHEREAS**, by providing for an optional tax credit, local municipalities will be able to consider providing property tax credits for actions, such as reducing fuel consumption, that councils or assemblies determine will improve air quality; and

**WHEREAS**, the Alaska Municipal League Board of Directors believes it is in the best interest of Alaska to allow local government to encourage its citizens to make improvements to their home and businesses that positively impact the community's air quality and to heat their homes and businesses in the most environmentally responsible way possible.

**NOW, THEREFORE BE IT RESOLVED** that the Alaska Municipal League Board of Directors supports an amendment to Title 29 that provides local municipalities with the ability to provide tax incentives for residences or commercial businesses to improve the energy efficiency of their property, convert from carbon based energy consumption to alternative energy generation or to take other steps that positively impact their community's air quality; and

**NOW, THEREFORE BE IT RESOLVED** that the Alaska Municipal League Board of Directors supports legislation authorizing an air quality improvement tax credit that allows specific eligibility, conditions, and other criteria for the tax credits to be established by local ordinance so that governments will have flexibility in crafting appropriate tax incentives that meet their individual community's needs.
