¹ Percent Proficient and Percent Not Proficient rates only include students that participated in the exams.

Note: 2006 is the first year both a 10th grade SBA and 10th grade HSGQE test was administered. 10th graders' results represent both populations using only the HSGQE questions. The Participation Rate may not include all of these students as some may be 2nd year 10th graders.

Page 1 of 7 Rev 03/17/2009

² Participation rate is calculated by dividing the total count of students tested by the enrollment on the first day of testing.

³ Proficiency scores were adjusted and these changes are reflected beginning 2007.

¹ Percent Proficient and Percent Not Proficient rates only include students that participated in the exams.

Note: 2006 is the first year both a 10th grade SBA and 10th grade HSGQE test was administered. 10th graders' results represent both populations using only the HSGQE questions. The Participation Rate may not include all of these students as some may be 2nd year 10th graders.

Page 2 of 7 Rev 03/17/2009

² Participation rate is calculated by dividing the total count of students tested by the enrollment on the first day of testing.
