Temporary								

ANALYSIS: (Attach a separate page if necessary)

This legislation increases the total allowance for a claim that can be approved by the Fishermen's Fund Administrator before a request for additional monies and a showing of compelling reasons is required under AS 23.35.140. There are claims that exceed the current \$2,500 limit but the claimant does not take the next step to request additional sums as required under AS 23.35.140. With the higher approval level some of those claims would be paid to a higher level and thus increase our expenditures. Based on a 10-year claim history, the department estimates that expenditures could increase by approximately \$63,700. The program has sufficient budgeted expenditure authorization to absorb this cost increase.
