Alaska House of Representatives
State Capitol, Room 412
Juneau, AK 99801-1182

Re: HB 365, Fish Processor Fees, Licenses, and Records

Dear Representative Millett:

Thank you for the opportunity to respond to your inquiry regarding HB 365, Fish Processor Fees, Licenses, and Records.

HB 365 is a continuation of a program established by the Alaska State Legislature in 2002 allowing Salmon Fishery Associations (AS 16.40.250) formed by fishermen for the purpose of promoting fleet consolidation and capacity reduction. That legislation (HB 286-2002) encourages the Commissioner of the Alaska Department of Fish and Game to assist fishermen in the formation of these associations among the various Alaska salmon fisheries. In 2006, the Alaska State Legislature modified AS 16.43.330 through HB 484 to allow reimbursement to Salmon Fishery Associations in the unlikely event the State of Alaska, through the Commercial Fisheries Entry Commission, issued more limited entry permits into a salmon fishery that has an outstanding loan for fleet consolidation and capacity reduction.

HB 365 is simply an accounting procedure modification to make the program operate more efficiently and allow the lender to monitor the capacity reduction loan repayment. It does not change the program established in 2002 in any way.

The Southeast Revitalization Association (SRA), the fishermen's association formed by the SE Alaska Salmon Purse Seine fleet under the 2002 legislation, is close to receiving federal funding in the form of a loan through the National Marine Fisheries Service (NMFS) to carry out the purposes of the Salmon Fishery Association legislation. NMFS will provide a long term loan to SRA to be paid back by Southeast salmon seine fishermen from future salmon harvests. NMFS requires a mechanism to be able to monitor the loan payback. HB 365 provides that mechanism.

HB 365 will allow NMFS access to confidential state records and reports through an exception to AS 16.05.815 (a) (Confidential nature of certain reports and records). This is not an unusual request since a dozen other exceptions have been granted in statute, including NMFS but for purposes of fishery management and enforcement. This legislation is necessary since it is the State of Alaska that maintains the fish ticket harvest data and fish processor annual reports. This exception will provide

assurance to NMFS that they are receiving the proper repayment of their loan. Similarly a requirement is added to AS 43.75.020(a), the Alaska Fisheries Business License, that the applicant in addition to other conditions, agrees to pay the fee assessment collected from the Southeast seine fleet to NMFS.

The original legislation in 2002 was supported by the Alaska fishing community and had overwhelming legislative support in both the House and Senate, as did the 2006 modification. This support stemmed from the fact that the program was initiated by fishermen for fishermen, it is a voluntary program (no one will be forced to sell their limited entry permit), the program requires a majority vote of all the fishermen to implement the loan agreement, the fishery association will have access to federal funds through the Magnuson-Stevens Fishery Conservation and Management Act, there is little State expense or administration, the State maintains all its responsibility to manage its fisheries in the future should conservation or economic conditions change, and the program has had a history of legislative support.

We have been pleased to work with the SRA on the establishment of their association and the success of their pilot program in 2008 which resulted in the buyback of 35 limited entry permits in the SE Alaska salmon purse seine fishery.

With the passage of HB 365 we look forward to a continuous working relationship with SRA and the Alaska fishing community.

Thank you for the opportunity to provide these comments.

Sincerely,
