Subject: HB 73

Ms/Mrs. Manly,

I support HB 73 that would provide special license plates for firefighters and EMS providers. As being a 17 year active volunteer firefighter/Engineer/past-EMT here in Juneau for the Capital City Fire Rescue, I am support of the needs of a license plate representing the folks within the fire/EMS services, career/volunteer/combination, that represent our great state. Without the hard dedication and commitment it takes to do what they/we do, we'd be a hurting state of panic when the fire alarm/page goes out. Please consider this one vote/support of this house bill being presented next week to The House.

Mission Statement

"Readiness, Dedication, Service"

My personal motto in the fire services:

"All firefighters are pyromaniacs, we just keep it in control"

"If it wasn't for fire, we'd be out of a job"

To: Nancy Manly
Subject: Support for HB 73

Rep. Manly,

Please hear this plea in support of HB 73 – Special License Plates for firefighters and emergency service providers. I strongly support this measure.

As a 35+ year veteran of the fire service, including a 29 year career with the Anchorage Fire Department and some Volunteer service, I recognize that we are the unheralded heroes of a safe everyday life. We are usually proclaimed heroes just after a major event but most often simply overlooked most of the rest of the time.

We recognize Armed Service Veterans, appropriately, with vanity plates acknowledging their contribution to world and national security and peace. It is not inappropriate to recognize firefighters and other emergency responders for their contribution toward the common man's tranquility knowing that they can dial 911 and be taken care of.

It is said that "Only two defining forces have ever offered to die for you, Jesus Christ and the American G.I. One died for your soul, the other for your freedom. Thank them both today." (quote variously attributed) I often add the following when using this quote: "Firefighters and Police are the present-day, local representatives of this ethic. They willingly stand between you and your greatest fears."

Thank you for your effort on this bill.

Sincerely,
Dan

Subject: HB 73
Attachments: HB 73 copy FF Plates.pdf

Dear Ms. Manly,

I live in Nome and volunteer with the Nome Ambulance Department as an EMT. I have also served as an EMT with Copper River EMS out of Glennallen. I understand Representative Lynn has sponsored legislation in conjunction with Speaker Harris known as House Bill 73, an act providing for special license plates for firefighter and EMS personnel. I support this bill/amendment that I understand will be read into consideration some time next week. I have attached a copy of this bill which I have reviewed.

As I'm sure you are aware, in many areas of our state firefighting and EMS service is done by skilled volunteers, not paid professionals. These volunteers typically volunteer many long hours not only in the performance of their duties, but also in training time. This is a huge commitment of the individuals as well as their families. This is of course in addition to the many paid professionals who dedicate their careers to serving the residents of our great and wonderful state.

I believe these special commemorative license plates are a simple yet significant and appropriate way to recognize these individuals and their contribution to our communities and society in general.

Your assistance in passage of this legislation to the Senate would be very much appreciated.

Respectfully,

Scott A. Johnson

PO Box 22092, Juneau, Alaska 99802

March 20, 2009

Representative Bob Lynn

Representative John Harris

On behalf of the Alaska State Firefighters Association, I would like to voice our unified support via this letter to HB 73, "An Act relating to special firefighter and emergency medical service provider license plates; and providing for an effective date."

As we have stated before, not only is this bill to recognize and thank both volunteer and paid personnel statewide, we feel it would be an effective tool in the recruitment and retention of volunteers.

Nationwide, as in Alaska, departments struggle with the recruitment of volunteers. Firefighters and emergency medical responders are called upon to do more than "show up" at an event. For volunteers their jobs require extensive training, taking valuable time from their families and home life. This is time given freely, without compensation and many times, without thanks from those they serve. People have just come to expect them to "show up" – paid or volunteer when there is an incident – and they do.

Our Mission:

To serve our members through professionalism and leadership there by
enhancing the Fire/Rescue services of Alaska.

PO Box 22092, Juneau, Alaska 99802

Both paid and volunteer personnel in the fire service, give more than is required by their jobs, they more times than naught volunteer in their off time within their communities to support various causes – helping their communities raise monies and put on programs that improve and add to the quality of life in communities all across the state.

The Alaska State Firefighters Association has applied for and been awarded more than \$600,000 dollars in SAFER (Staffing for Adequate Fire and Emergency Response) Grants through FEMA. With these monies our organization is working with departments statewide to promote volunteerism and fund training for personnel. The Alaska State Firefighters Association is made up of both paid and volunteer firefighters and emergency service personnel – striving to enhance the fire and rescue service of the State of Alaska.

This bill would be a small token of appreciation and hopefully a “seed” of encouragement towards volunteerism.

Sincerely,

Dave Miller
President

Our Mission:

To serve our members through professionalism and leadership there by
enhancing the Fire/Rescue services of Alaska.

Subject: Firefighter/EMS provider license plates

Ms. Manly,

I am wrtting you in support of HB 73 which provides for special license plate for firefighters and emergency services providers. I support this legislation for two basic reasons. First, I am a volunteer firefighter in my local community as well as an EMS responder. Secondly, and most importantly, if it were not for the acts of a group of EMS providers that came to my aid a year and a half ago I would not be here to send this email. I would have died of a major MI but with their assistance was able to pull through.

I have been to many incidents where similar fire/EMS has given their all and then some to protect property, save lives and provide a safe environment for us all to live in. They do this with very little, if any, recognition. I feel that a license plate would be a fitting was to recognize these dedicated individuals.

One last thing, in those communities utilizing volunteer fire/EMS personnel to protect their communities, having a special license plate would be a way for non-responders to recognize responding individuals when there was an emergency response in progress.

Thanks you for your time and I hope your support in recognizing these very important and dedicated individuals.

Suzie: I was just reading Richard Abbot's letter. He mentions that having a special license plate would be a way for non-responders to recognize individuals when there is an emergency in progress. I hope that isn't the intent of getting these plates. These plates are vanity plates only. There will be no special privileges that will go with these plates. The way to recognize individuals when there is an emergency in progress will be the blue light on their car blinking to get out of the way. Am I misunderstanding? Please advise.

Subject: HB 73

This letter encourages the legislature to pass HB73 to provide license plates that recognize emergency service personnel that deliver critical life saving care to Alaska residents and visitors. Many of these personnel are volunteers that provide care with little compensation or recognition. As the number of emergency services volunteers decline around the country it is important that efforts are taken to provide recognition to this vital service.

Consideration and passage of this resolution is appreciated.

Greetings from Skagway where I am stranded (weather) in the middle of an EMT 2 class. I had hoped to get back to Juneau for the Firefighter 1 class Saturday but we had to turn back due to snow squalls. I think that this email may be late but I do so heartily support HB 73 providing special license plates for fire fighting and EMS providers. I am currently a Public Health Nurse, in training to be an effective fire/EMS volunteer. I do know that when the 'all call' sounds for a fire or motor vehicle accident that we need to have a consistent, efficient way for law enforcement or other providers to recognize our vehicles for effective scene access. Not everyone will have a 'blue light' in their vehicle...in addition to which I suspect that lights can be purchased by 'anyone'. A special plate would be more official as well as a recognized identifier.

Thank you for working on HB 73, Kathy Miller RN, MPH, EMT 1 and Lynn Canal Station volunteer for CCF/R-Juneau

Subject: Firefighter Support

Rych, can you send this along? I can't seem to get the email address for Ms. Manly to work. Thanks. - G

This note is written in support of HB 73. I have been a firefighter/EMS provider in Juneau since 1974, am the retired District Chief for the Lynn Canal/Auke Bay District and currently serve in the capacity of Captain, Special Rescue Teams for Capitol City Fire/Rescue. In the 35 years that I have been a volunteer in the fire service I have been blessed to serve with numerous dedicated individuals, received great training opportunities and to had the satisfaction of serving my community. The rewards of saving property, protecting the environment and in several instances actually saving lives has enriched my life in ways that words can scarcely describe. As I near the end of this important and defining part of my life I realize that HB 73 makes the transition a little easier; we don't retire our pagers and helmets without profound regret or an acceptance that we'll not miss the calls and opportunity to serve.

Thanks,

George Reifenstein Jr., Captain, Special Teams, CCF/R
4202 Auke Lane,
Juneau, AK 99801

I totally support HB 73 that would provide special license plates for firefighters! Many states have a similar program honoring firefighters that risk their lives for others.
